

## Pipette Plugger and Serological Glass Pipettes

Plug your glass pipettes with the pipette plugger from Bellco Glass:  
Plugged serological glass pipettes for your cell culture application are an economic and ecologically sensitive alternative to disposable plastic pipettes.  
The Bellco pipette plugger can plug 40, 50 or even 60 pipettes per minute. It has different operating modes for continuous or on-demand supply of cotton. The uniform plug shape guarantees continuously and consistently plugged pipettes. The cotton supplied with the machine will last for approximately 35,000 pipettes. The compact design of the machine and a handle make it easy to transport within your lab.

- Three plugging speeds:  
40, 50 or 60 pipettes per minute
- Operates in continuous or actuate mode
- Uniform plug shape insures proper plug fit
- Carrying handle for convenient transport
- Supplied with 1 bag of cotton roving  
(Cat. No. 7750-22222 see below)

Cat. No.	Description
7750-11220	Pipette plugger (W x D x H): 25 x 28 x 24 cm

### Cotton Roving for Pipette Plugger

- Absorbent, 12 grain premium long-fiber cotton
- Packed two pounds (0,9 kg) coiled in plastic bag
- Plugs approximately 35.000 pipettes
